- 3.04 Demo: Evaluating an AI Pilot for Customer Support - Part 1
- 3.05 Demo: Evaluating an AI Pilot for Customer Support - Part 2
- 3.06 Demo: Evaluating an AI Pilot for Customer Support - Part 3

Lesson 04: Leadership Frameworks for AI Govern Map Measure and Manage

- 4.01 NIST AI RMF Functions as a Leadership Cadence
- 4.02 Ensuring Sustainable and Balanced AI Adoption
- 4.03 Turning AI Insights into Accountable Decisions
- 4.04 Demo: Building an AI Use-Case Portfolio and Executive Pilot Recommendation - Part 1
- 4.05 Demo: Building an AI Use-Case Portfolio and Executive Pilot Recommendation - Part 2

Lesson 05: Key Takeaways

Skills Covered

- Fundamentals of Artificial Intelligence
- Machine Learning Concepts and Methods
- Real-World AI Applications
- AI Ethics and Responsible Development
- Data Analysis for AI Projects
- Problem-Solving with AI Tools
- AI Strategy
- Risk Management
- Decision Making
- Change Leadership
- AI Governance
